

The Support Spa

By Seeds & Berries'
Alia Berry MSW LSW

I am really enjoying these sessions. They really are therapeutic. It has been valuable for me to take the time to listen to others' perspectives and struggles; many of which we have in common. I am even making connections offline between topics on my own. This being our last session was kind of sad. It was a great blessing!!! Continue what you were doing. It was fantastic.

-Participant Feedback from School Year 2020-21
