

Roger León
Superintendent

Newark Board of Education

Office of Board Relations

Where Passion Meets Progress

Message from the Board

June 13, 2019

It is with much pride and enthusiasm that the Newark Board of Education announces the one-year strategic plan “NPS Clarity 2020.” With the guidance of our Superintendent Roger León, this plan promises to unify and align all of the district’s systems and create opportunities for continuous learning for our students, staff, and community.

The Board is looking forward to implementing the systems that embrace, celebrate, and empower the diversity among all of our students and staff.

The Board believes that by establishing clarity on the district’s role in the creation of a new ecosystem in Newark, we will find new collaborations and broaden current partnerships in expanding the scope of work from conception to cradle and college to career.

We join the Superintendent in thanking everyone who participated in the community conversations and roundtable meetings. The time and commitment to this one-year strategic plan is evidence of our desire as a community to become united.
